Subject: RE: Voter file

Hi Ken.

How's everything over at SOS?

We can do this, however we need to do a few things first:
1) Create a secure FTP site for you to send the file (can't send sensitive material via email)

1a. Need to work with your IT staff to set up the site on our side - please send contact information

1b. I need to work with our IT staff to open up firewall and create sFtp site

2) Have you send file to our site
3) Run your file against our database

There is a charge with SSA, but I'm not sure what it is. I think that it's .02 or .03 per transaction, but my fee is where it starts to get expensive (just kidding).
I'll check with MVD about the SSA charges and how we can send a bulk file to SSA.

Is this a "one-time" deal or how often will we be running this?

Take care.

Lee

Subject: Voter file

Hi Lee,

I just left you a voice mail where the Gov's office and the SOS would like to authenticate voter registration information with MVD.

The idea is that the SOS office would send to TRD the voter registration file including name, DOB, SSN and address. We would like for TRD to run the file against MVD records to see if name, DOB and SSN matches against the MVD files.

Those voter records that do match would then be put in one file called "Voter Files Authenticated". The remainder of files that did not match would then be placed in a separate file which TRD would then send to SSA to verify with SSA as a batch process.

One unknown on our end is that when we send the unmatched files to SSA, is there a charge from SSA? If so, do you know the charge?

I am in committee this morning and cannot chat but can correspond via email.

We have a file ready to send to you but we need to know what type of file and how to get it to you.

Ortiz, Kenneth, SOS

Hi ken,

Attached file has details of people with no SSN from the file produced by SOS.

Thanks
